|    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |           |    |    |     |     |    |     |    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  | |    | S. 49–54 **10** Verpackte Zahlen

**1 A**  $x + 4 = 2x + 1$

**B**  $2x + 4 = x + 6$

**C**  $3x + 1 = 7$

**D**  $2x = 2$

**E**  $x + 3 = 2x$

**F**  $3x = 3$

**G**  $x = 3$

**H**  $2x + 2 = x + 4$

**I**  $x = 1$

**D, F** und **I** haben die Lösung 1.

**B, C** und **H** haben die Lösung 2.

**A, E** und **G** haben die Lösung 3.

Bei **G** und **I** ist die Lösung sofort erkennbar.

**2** Mögliche Lösung

$x = 1$

$x + 1 = 2$        $2x + 1 = x + 2$

$x = 2$

$2x + 3 = x + 5$        $2x + 1 = x + 3$

$x = 3$

$x + 1 = 4$        $2x + 2 = 8$

**3**  $2x = 10$        $x = 5$        $x + 1 = 6$

**4**  $2 \cdot (x + 5) = 15$

$2x = 0$

$x + 2 = 0$

$10 = 4x$

$10 + x = 8$

$12x + 4 = 4 \cdot (2x + 1)$

$2x + 10 = 10$

$x + 2,5 = 2x$

$100x = 250$

$4 \cdot (x - 25) = -90$

$5 \cdot (-x + 10) = 15x$

$2x + 4 = 0$

$x + 4 = 2$

$15x = 0$

$20 \cdot \left(\frac{1}{20}x - 12\right) = -242$

Text

David hat im letzten Monat mit dem Fahrrad doppelt so viele Kilometer zurückgelegt  
wie Joel. Elena hat 2 km weniger als David zurückgelegt.

**C** Termgruppe 1

|       |           |
|-------|-----------|
| Joel  | $x$       |
| David | $x + 10$  |
| Elena | $3x$      |
| Total | $5x + 10$ |

## Termgruppe 2

|       |             |
|-------|-------------|
| Joel  | $x - 10$    |
| David | $x$         |
| Elena | $3(x - 10)$ |
| Total | $5x - 40$   |

## Termgruppe 3

|       |                     |
|-------|---------------------|
| Joel  | $\frac{1}{3}x$      |
| David | $\frac{1}{3}x + 10$ |
| Elena | $x$                 |
| Total | $\frac{5}{3}x + 10$ |

## Wertetabelle

|       |     |     |     |
|-------|-----|-----|-----|
| Joel  | 100 | 90  | 80  |
| David | 110 | 100 | 90  |
| Elena | 300 | 270 | 240 |
| Total | 510 | 460 | 410 |

**11 A** Die Gleichung  $3x + 2 = x$  hat – 1 als einzige Lösung.

Mögliche Lösung für weitere Gleichungen:  
 $2x + 8 = 12$  oder  $2x - 8 = 12$

**B** Die Gleichung  $x^2 - 9 = 0$  hat die Lösungen 3 und –3  
Die Gleichung  $x^2 - 1 = 0$  hat die Lösungen 1 und –1

Mögliche Lösung für weitere Gleichungen:  
 $x^2 - 25 = 0$  oder  $x^2 = 100$

**C**  $x = 15 + x$  hat keine Lösung, weil die Summe auf der rechten Seite immer um 15 grösser ist als die Zahl auf der linken Seite.

$2(3x + 2) = 6x + 10$  hat keine Lösung, weil die Summe auf der rechten Seite immer um 6 grösser ist als die Summe auf der linken Seite.

Drei weitere unlösbare Gleichungen:

$$x^2 + 5 = 1$$

$$x + 1 = x - 1$$

$$2(x + 1) = 2x + 1$$

**D**  $2(3x + 2) = 6x + 4$ . Weil links (nach dem Ausmultiplizieren) der gleiche Term steht wie rechts, kann man für  $x$  jede beliebige Zahl einsetzen und erhält dann links immer gleich viel wie rechts.

Drei weitere allgemeingültige Gleichungen:

$$x = x$$

$$2x + 1 = 2x + 1$$

$$2(x + 1) = 2x + 2$$

S. 55–62

**11** Dreiecke – Vierecke**1**

**A** Der Punkt heisst Umkreis-Mittelpunkt und ist der Schnittpunkt der drei Mittelsenkrechten.

**B** Bei Vierecken schneiden sich die vier Mittelsenkrechten in der Regel nicht in einem Punkt. Es gibt allerdings spezielle Vierecke, bei denen das so ist, wie zum Beispiel beim Quadrat oder beim Rechteck.

**2 A**

**B** Ja. Bei einem Rechteck oder Quadrat ist dies möglich. Der Schnittpunkt der Diagonalen eines Rechtecks oder Quadrats ist immer von allen vier Eckpunkten A, B, C und D gleich weit entfernt.

**3**

## 4 Individuelle Lösung

- 5 Der Schwerpunkt teilt jede der drei Seitenhalbierenden in zwei unterschiedlich lange Teile.  
Das längere Teilstück ist in allen Fällen doppelt so lang wie das kürzere.

- 6 A Das Dreieck ist rechtwinklig.

B Ja

7

9 A

$$A \approx 14,7 \text{ cm}^2$$

B

$$A \approx 21 \text{ cm}^2$$

C

$$A = 17,875 \text{ cm}^2$$

10

Konstruktionsanleitung:

- 1.) Strecke  $c = \overline{AB}$  zeichnen
- 2.) Winkel  $50^\circ$  bei B eintragen, Gerade a zeichnen
- 3.) Von A aus die Seite b auf die Gerade a abtragen
- 4.) Damit ist der dritte (bisher noch fehlende) Eckpunkt C konstruiert

11

Aus  $\alpha = 45^\circ$  und  $\beta = 45^\circ$  folgt:  $\gamma = 90^\circ$   
 Das Dreieck ist rechtwinklig und gleichschenkelig,  
 seine Flächenformel lautet:  $A = (a \cdot b) : 2$   
 Aus  $A = 18 \text{ cm}^2$  folgt dann:  $a \cdot b = a \cdot a = 36 \text{ cm}^2$ ,  
 also  $a = b = 6 \text{ cm}$ .

12 A und C

B  $A \approx 47 \text{ cm}^2$

D Bei diesem speziellen Trapez ist eine Aufteilung in 4 kongruente Trapeze möglich, weil es sich in 12 gleichseitige Dreiecke unterteilen lässt.

13 A

B  $A = 54 \text{ cm}^2$

C

S. 63–70 12 Pythagoras: Musik – Harmonie – Zahl

1 A

B  $c^2 = a^2 + b^2$

2  $c^2 = a^2 + b^2$

3 A  $a = 2,7 \text{ cm} \rightarrow a^2 = 2,3 \text{ cm} \cdot 2,3 \text{ cm} = 5,29 \text{ cm}^2$   
 $b = 3,3 \text{ cm} \rightarrow b^2 = 3,2 \text{ cm} \cdot 3,2 \text{ cm} = 10,24 \text{ cm}^2$   
 $c = 4 \text{ cm} \rightarrow c^2 = 4 \text{ cm} \cdot 4 \text{ cm} = 16 \text{ cm}^2$

$$a^2 + b^2 = 5,29 \text{ cm}^2 + 10,24 \approx 16 \text{ cm}^2 = c^2$$

Der Flächeninhalt des grössten Seitenquadrats ist gleich gross wie die Summe der beiden kleineren Seitenquadrate.

B  $a = 1,4 \text{ cm} \rightarrow a^2 = 1,4 \text{ cm} \cdot 1,4 \text{ cm} = 1,96 \text{ cm}^2$   
 $b = 2,3 \text{ cm} \rightarrow b^2 = 2,3 \text{ cm} \cdot 2,3 \text{ cm} = 5,29 \text{ cm}^2$   
 $c = 4 \text{ cm} \rightarrow c^2 = 4 \text{ cm} \cdot 4 \text{ cm} = 16 \text{ cm}^2$

$$a^2 + b^2 = 1,96 \text{ cm}^2 + 5,29 \text{ cm}^2 = 7,25 \text{ cm}^2 < 16 \text{ cm}^2 = c^2$$

Der Flächeninhalt des grössten Seitenquadrats ist grösser als die Summe der beiden kleineren Seitenquadrate.

C  $a = 3,7 \text{ cm} \rightarrow a^2 = 3,7 \text{ cm} \cdot 3,7 \text{ cm} = 13,69 \text{ cm}^2$   
 $b = 4,4 \text{ cm} \rightarrow b^2 = 4,4 \text{ cm} \cdot 4,4 \text{ cm} = 19,36 \text{ cm}^2$   
 $c = 4 \text{ cm} \rightarrow c^2 = 4 \text{ cm} \cdot 4 \text{ cm} = 16 \text{ cm}^2$

$$a^2 + b^2 = 13,69 \text{ cm}^2 + 19,36 \text{ cm}^2 = 33,05 \text{ cm}^2 > 16 \text{ cm}^2 = c^2$$

Der Flächeninhalt des grössten Seitenquadrats ist kleiner als die Summe der beiden kleineren Seitenquadrate.

- 4 A  $c = 5$   
 B  $c = 10$   
 C  $c = 13$

- 5 A 10  
 B 15  
 C 17  
 D 7,5

- 6 A  $A = 60$   
 B  $A = 12$   
 C  $A = 12,6$

- 7 A Diagonale: 25  
 B Seite  $b$ : 16  
 C Höhe: 30  
 D Diagonale: 20

- B  $\overline{AB}^2 = (4^2 + 3^2) \rightarrow \overline{AB} = 5$   
 C  $\overline{BC}^2 = (5^2 + 12^2) \rightarrow \overline{BC} = 13$   
 C  $\overline{AC}^2 = (9^2 + 9^2) \rightarrow \overline{AC} \approx 13$

- 9 A Figur 2

- B Flächeninhalt des weissen Quadrats in Figur 1:  $c^2$   
 Flächeninhalt der beiden weissen Quadrate in Figur 2:  $a^2 + b^2$

- C Term für die Fläche der gesamten Figur

Eine Seite der Figur 2 beträgt jeweils die Länge  $a + b$ .  
 Die Fläche ist also  $(a + b)(a + b)$ .  
 $(a + b)(a + b) = (a + b)^2 = a^2 + 2ab + b^2$

- Term für die freibleibende Fläche

Ein Dreieck in Figur 2 hat die Fläche  $\frac{ab}{2}$ . Die vier Dreiecke in Figur 2 haben die Gesamtfläche  $4 \cdot \frac{ab}{2} = 2ab$

Wenn man in Figur 1 die vier Dreiecke vom grossen Quadrat  $(a + b)^2$  subtrahiert, bleibt  $c^2$  übrig.

Wenn man in Figur 2 die vier Dreiecke vom grossen Quadrat  $(a + b)^2$  subtrahiert, bleibt  $a^2 + b^2$  übrig.

Mit anderen Worten:

In Figur 1 wird  $2ab$  von  $(a + b)^2$  subtrahiert und es entsteht  $c^2$   
 In Figur 2 wird  $2ab$  von  $(a + b)^2$  subtrahiert und es entsteht  $a^2 + b^2$

Daraus folgt, dass  $c^2 = a^2 + b^2$  ist.

- 10  $(a + b)^2 = c^2 + 2ab$   
 $a^2 + 2ab + b^2 = c^2 + 2ab$   
 $a^2 + b^2 = c^2$

S. 71–78

### 13 Quadratwurzeln

- 1 A

- B Die Abstände werden kleiner, je höher die Zahl ist, deren Wurzel man einzeichnen muss.

Begründung: Wurzeln stehen mathematisch im gleichen Verhältnis zu natürlichen Zahlen, wie natürliche Zahlen zu Quadratzahlen. So wie Quadratzahlen schneller wachsen als natürliche Zahlen, so wachsen natürliche Zahlen schneller als Wurzeln.

- 2

3 A  $a^2 = 1^2 + 1^2 = 1 + 1 = 2 \rightarrow a = \sqrt{2}$   
 $b^2 = a^2 + a^2 = 2 + 2 = 4 \rightarrow b = \sqrt{4} = 2$   
 $c^2 = b^2 + b^2 = 4 + 4 = 8 \rightarrow c = \sqrt{8} = 2\sqrt{2} = 2a$   
 $d^2 = c^2 + c^2 = 8 + 8 = 16 \rightarrow d = \sqrt{16} = 4 = 2b$

B Ergänze die Zeichnung mit einem Quadrat der Fläche  $d^2$ .

C Seite:  $d^2 = c^2 + c^2 = 8 + 8 = 16 \rightarrow d = \sqrt{16} = 4$   
 Diagonale:  $e^2 = d^2 + d^2 = 16 + 16 = 32 \rightarrow e = \sqrt{32} = 4\sqrt{2}$

Man kann daraus ablesen:

In einem Quadrat ist die Diagonale immer  $\sqrt{2}$ -mal länger als die Seite.

4 A

B  $\overline{AB} = 32 \text{ cm}$   
 $\overline{BZ} = \sqrt{3072} \text{ cm} \approx 55,4 \text{ cm}$   
 C  $\overline{BC} = \sqrt{768} \text{ cm} \approx 27,7 \text{ cm}$   
 $\overline{CZ} = 48 \text{ cm}$   
 $\overline{DZ} = \sqrt{1728} \text{ cm} \approx 41,6 \text{ cm}$

5 A  $\sqrt{15}$   
 $15 \cdot 1 = 15$

$$\frac{15+1}{2} = \frac{16}{2} = 8 \quad \frac{15}{8} = 1,875 \quad \text{also } 8 \cdot 1,875 = 15$$

$$\frac{8+1,875}{2} \approx 4,94 \quad \frac{15}{4,94} \approx 3,04 \quad \text{also } 4,94 \cdot 3,04 \approx 15$$

$$\frac{4,94+3,04}{2} = 3,99 \quad \frac{15}{3,99} \approx 3,76 \quad \text{also } 3,99 \cdot 3,76 \approx 15$$

$$\frac{3,99+3,76}{2} = 3,88 \quad \frac{15}{3,88} \approx 3,87 \quad \text{also } 3,88 \cdot 3,87 \approx 15$$

Also ist  $\sqrt{15} \approx 3,875$  bzw. 3,88

$\sqrt{35}$

Man kann auch mit einem anderen Produkt starten als  $35 \cdot 1$ , z. B.  $7 \cdot 5$ , dann geht es etwas schneller.

$7 \cdot 5 = 35$

$$\frac{7+5}{2} = 6 \quad \frac{35}{6} \approx 5,83 \quad \text{also } 6 \cdot 5,83 \approx 35$$

$$\frac{6+5,83}{2} \approx 5,92 \quad \frac{35}{5,92} \approx 5,91 \quad \text{also } 5,92 \cdot 5,91 \approx 35$$

Also ist  $\sqrt{35} \approx 5,915$  bzw. 5,92

$\sqrt{55}$

$11 \cdot 5 = 55$

$$\frac{11+5}{2} = 8 \quad \frac{55}{8} \approx 6,88 \quad \text{also } 8 \cdot 6,88 \approx 55$$

$$\frac{8+6,88}{2} \approx 7,44 \quad \frac{55}{7,44} \approx 7,39 \quad \text{also } 7,44 \cdot 7,39 \approx 55$$

$$\frac{7,44+7,39}{2} \approx 7,42 \quad \frac{55}{7,42} \approx 7,41 \quad \text{also } 7,42 \cdot 7,41 \approx 55$$

Also ist  $\sqrt{55} \approx 7,415$  bzw. 7,42

$\sqrt{75}$

$15 \cdot 5 = 75$

$$\frac{15+5}{2} = 10 \quad \frac{75}{10} = 7,5 \quad \text{also } 10 \cdot 7,5 = 75$$

$$\frac{10+7,5}{2} = 8,75 \quad \frac{75}{8,75} \approx 8,57 \quad \text{also } 8,75 \cdot 8,57 \approx 75$$

$$\frac{8,75+8,57}{2} \approx 8,66 \quad \frac{75}{8,66} \approx 8,66$$

Also ist  $\sqrt{75} \approx 8,66$

$\sqrt{95}$

$19 \cdot 5 = 95$

$$\frac{19+5}{2} = 12 \quad \frac{95}{12} \approx 7,92 \quad \text{also } 12 \cdot 7,92 \approx 95$$

$$\frac{12+7,92}{2} \approx 9,96 \quad \frac{95}{9,96} \approx 9,53 \quad \text{also } 9,96 \cdot 9,53 \approx 95$$

$$\frac{9,96+9,53}{2} \approx 9,75 \quad \frac{95}{9,75} \approx 9,74 \quad \text{also } 9,75 \cdot 9,74 \approx 95$$

Also ist  $\sqrt{95} \approx 9,745$  bzw. 9,75

B Die Differenz der Zahlen unter der Wurzel ist immer 20.  
 Die Differenzen der Wurzeln aus den Zahlen sind nicht konstant, sie werden immer kleiner.

| 6 A | 50    | B | 15 | C | 1,5 | D | 0,3 |
|-----|-------|---|----|---|-----|---|-----|
|     | 2 000 |   | 20 |   | 2,5 |   | 0,4 |

 $\sqrt{0,4} = 0,63$   
 $\sqrt{0,8} = 0,89$

## S. 79–86 14 Steigung

- 1 A 1:2,5  
B Am steilsten ist Keil 1 (mit Steigung 1,00)  
Am flachsten ist Keil 3 (mit Steigung 0,30)  
C Mögliche Lösung:  
Ein Radiergummi hat eine leicht «klebrige» Oberfläche.  
Dies macht die Versuche schwer reproduzierbar. Die Streuung der Resultate entspricht durchaus den Erwartungen.

- 2 A Die Keile in Aufgabe 1 zeigen im Längsschnitt immer ein rechtwinkliges Dreieck. Das ist bei den Keilen in Aufgabe 2 nicht mehr so. Dementsprechend müssen «Höhenunterschiede», rechtwinklig zur Basisstrecke, eingeführt werden, wenn die Steigungen berechnet werden sollen.

B Keil 1 Steigung =  $\frac{18}{60} = 0,30$   
Keil 2 Steigung =  $\frac{42}{69} \approx 0,60$

- 3 A  $m = \frac{44}{55} = \frac{4}{5} = 0,8 = 80\%$  Neigungswinkel:  $38^\circ$

B Gerade Treppe  $m = \frac{29}{34} \approx 0,85$

Podesttreppe  $m = \frac{29}{68} \approx 0,43$

$\frac{1}{4}$  gewandelt  $m = \frac{29}{35} \approx 0,83$

$\frac{1}{2}$  gewandelt  $m = \frac{29}{55} \approx 0,53$

4 A

- B 2,06 m

5

|          | zu erreichende Höhe | Abstand von der Hausmauer | Länge der Leiter | Steigung der Leiter |
|----------|---------------------|---------------------------|------------------|---------------------|
| Leiter 1 | 2,2 m               | 1 m                       | 2,4 m            | 220%                |
| Leiter 2 | 2,8 m               | 0,93 m                    | 2,95 m           | 300%                |

- 6 A Rampe 2 hat die grössere Steigung (0,5).

## B Table-Bank

Steigung =  $\frac{1,2}{3,7} = 0,324... \approx 32\%$   
Neigungswinkel  $\approx 18^\circ$   
Rampenlänge = 3,9 m

## Bank

Steigung =  $\frac{1,5}{4,3} = 0,348... \approx 35\%$   
Neigungswinkel  $\approx 19^\circ$   
Rampenlänge = 4,55 m

## Eck-Bank

Steigung =  $\frac{2,0}{7,2} = 0,277... \approx 28\%$   
Neigungswinkel  $\approx 16^\circ$   
Rampenlänge = 7,5 m

7 A

|                           | Dreieck ABC                                              | Dreieck ADE                                              | Dreieck AFG                                              |

**C** Ich zeichne für jede Gerade an einem geeigneten Ort ein Steigungsdreieck ein. Aus dem Steigungsdreieck kann ich die Steigung ablesen, indem ich die Höhe des Dreiecks durch die Länge des Dreiecks dividiere.

Die Gleichung baue ich nach dem Schema  $y = mx + q$  auf; ich notiere also vor dem «x» die Steigung «m», die ich gefunden habe. Nachher kläre ich ab, in welcher Höhe die Gerade die y-Achse schneidet; aus dieser Höhe ergibt sich der sogenannte Achsenabschnitt q, den ich anschliessend als zweiten Summanden in der Gleichung notiere.

## S. 87–94 15 Zusammengesetzte Grössen

12 Diagramm C

- 13 A Individuelle Lösung  
 B Mögliche Lösung:  
 Wenn das erste (langsamste) Auto zum Stillstand kommt, hat das zweite Auto am gleichen Ortspunkt immer noch eine Geschwindigkeit von 40 km/h (weil sowohl der Reaktionsweg als auch der Bremsweg deutlich länger sind). Das dritte fährt noch mit über 60 km/h, das vierte sogar noch mit ungefähr 75 km/h.

- 14 A 15,75 m    33,75 m    72 m  
 B Es zeigt sich eine Übereinstimmung.

- 15 A 6,5 l    9,2 l    14 l  
 B 5 l pro Tag    25 l pro Woche    1200 l pro Jahr  
 C Etwa 10,4 l pro 100 km  
 D 1000 l statt 1200 Liter pro Jahr  
 Ersparnis: 200 l oder 17 %  
 E Im Stadtverkehr gibt es viele Kreuzungen. Es muss entsprechend oft gebremst und beschleunigt werden. Viele Autofahrer lassen ausserdem den Motor laufen, wenn sie vor einem Rotlicht warten – so wird Benzin verbraucht, auch wenn gar kein Weg zurückgelegt wird.  
 F Mögliche Lösungen:  
 Motor abstellen vor Rotlichtern, sanft beschleunigen, möglichst zurückhaltend bremsen, Auto vor dem Stop ausrollen lassen usw. So lässt sich der Stadtverbrauch vielleicht von 13,5 auf 11 Liter senken.  
 Weitere Möglichkeit: Auf der Autobahn nur 100 km/h fahren. Der Verbrauch wäre dann noch 9,2 l pro 100 km. So ergäbe sich ein Tagesverbrauch von 4,33 Litern, ein Jahresverbrauch von 1040 Litern und eine Ersparnis von etwas mehr als 13 %.

- 16 A 13,88 l pro 100 km  
 B 11,12 l pro 100 km  
 C Bei etwa 164 km/h

S. 95–100 16 Zehn hoch

- 1 A 90 Milliarden Jahre  
B 8 Milliarden Jahre

- 2 A 300 Millionen Kilometer  
B Es sind ca.  $7 \cdot 10^{20}$  Moleküle, das entspricht  $7 \cdot 10^{20} \text{ mm}^2$ .

$$7 \cdot 10^{20} \text{ mm}^2 = 7 \cdot 10^8 \text{ km}^2$$

$$s = \sqrt{(7 \cdot 10^8) \text{ km}} \approx 26\,000 \text{ km (ca. } \frac{2}{3} \text{ des Erdumfangs)}$$

- B Die Zahl 10 würde im ersten Zahlenstrahl über 1 m weiter rechts liegen, im zweiten Zahlenstrahl über 10 m weiter rechts.

- 6 A  $1000 > 10^2 > 10 > 10^0 > \frac{1}{10} > 10^{-2} > 0,001 > 10^{-4}$   
B  $5 \cdot 10^3 > 150 > 10^2 > 50 > 10^0 > \frac{15}{100} > 0,1 > 2 \cdot 10^{-3}$

- 7 Ergänze.

4 Individuelle Lösungen

5 A Individuelle Lösung

B  $u_1 = 40\,000\,000 \text{ m}$      $r_1 = \frac{u_1}{2\pi} = 6\,366\,197,7 \dots \text{ m}$   
 $u_2 = 40\,000\,010 \text{ m}$      $r_2 = \frac{u_2}{2\pi} = 6\,366\,199,3 \dots \text{ m}$   
 Unterschied:  $r_2 - r_1 \approx 1,6 \text{ m}$

Erklärung: der Abstand zur Kugeloberfläche vergrössert sich proportional zur Verlängerung der Schnur, mit dem Proportionalitätsfaktor  $\frac{1}{2\pi}$ .

Also ist  $r_2 - r_1 = 10 : 2\pi = 1,59 \text{ m}$

C Individuelle Lösungen

7 A Die Kreisfläche ist kleiner als das Quadrat darum herum, aber grösser als das Quadrat darin.

Die Kreisfläche ist kleiner als das Sechseck darum herum, aber grösser als das Sechseck darin.

Die Kreisfläche ist kleiner als das 96-Eck darum herum, aber grösser als das 96-Eck darin.  
 Inzwischen ist aber das Vieleck aussenherum nicht mehr sehr viel grösser als das Vieleck im Innern des Kreises – also wird die Kreisfläche immer mehr «eingezwängt» zwischen zwei Vielecksflächen, die fast gleich gross sind.

B Man schafft eine Annäherung an die Kreisfläche.

|   | r [cm]    | d [cm]    | u [cm]     | A [cm <sup>2</sup> ] |
|---|-----------|-----------|------------|----------------------|
| A | 10        | 20        | 62,831 ... | 314,159 ...          |
| B | 5         | 10        | 31,415 ... | 78,539 ...           |
| C | 1,591 ... | 3,183 ... | 10         | 7,957 ...            |

Bei gleichem Zentriwinkel sind Radius, Durchmesser und Bogenlänge proportional. A verhält sich im Quadrat dazu.

11 A  $\approx 1810$

B  $\approx 1810$

C  $\approx 1810$

D  $\approx 1810$

Man bekommt viermal das gleiche Ergebnis, weil die Unterschiede der Quadrate der beiden Zahlen gleich sind, nämlich jeweils 576.

12 A  $G = 12,566 \text{ cm}^2 = 1256,6 \text{ mm}^2$

B  $V = 12566 \text{ mm}^3 = 12,566 \text{ cm}^3 = 12,566 \text{ ml}$

## 7 A Spalte 1

$$\begin{aligned} a^2 + 2a + 1 \\ a^2 + 4a + 4 \\ a^2 + 6a + 9 \\ a^2 + 8a + 16 \end{aligned}$$

## Spalte 2

$$\begin{aligned} a^2 - 2ab + b^2 \\ 9a^2 - 6ab + b^2 \\ 36a^2 - 12ab + b^2 \\ 81a^2 - 18ab + b^2 \end{aligned}$$

## Spalte 3

$$\begin{aligned} a^2 + 2ab + b^2 \\ 4a^2 + 8ab + 4b^2 \\ 9a^2 + 18ab + 9b^2 \\ 16a^2 + 32ab + 16b^2 \end{aligned}$$

## Spalte 4

$$\begin{aligned} a^2 - 2ab + b^2 \\ a^2 - 10ab + 25b^2 \\ a^2 - 20ab + 100b^2 \\ a^2 - 30ab + 225b^2 \end{aligned}$$

B Quadrat des ersten Summanden + Produkt der beiden Summanden + Quadrat des zweiten Summanden  
 oder:  
 Quadrat des ersten Summanden – Produkt der beiden Summanden + Quadrat des zweiten Summanden

8 A  $m^2 + 6m + 9$ 

B  $z^2 - 18z + 81$

C  $25x^2 + 20xy + 4y^2$

D  $16b^2 - 8bm + m^2$

E  $9y^2 - 3xy + 0,25x^2$

F  $9p^2 - a^2$

G  $\frac{a^2}{25} - 2ab + 25b^2$

H  $\frac{a^2}{36} - \frac{ab}{9} + \frac{b^2}{9}$

I  $4w^2 - 1$

K  $16x^2 - 72xy + 81y^2$

L  $100n^2 + 20mn + m^2$

M  $6x^2 - 5xy - 6y^2$

9 A **Berechnung 1:** Die Summanden wurden quadriert, aber das Produkt der beiden Summanden weggelassen.  
**Berechnung 2:** Die Summanden wurden quadriert und fälschlicherweise subtrahiert. Ausserdem wurde das Produkt der beiden Summanden weggelassen.

B  $(a+b)^2 = a^2 + 2ab + b^2$      $(a-b)^2 = a^2 - 2ab + b^2$   
 Die vorher fehlenden Produkte der Summanden sind nun eingefügt.

Das zweite Quadrat wird immer addiert, nicht subtrahiert.

10 A  $x^2 + 7x + 12$ 

$2(x+2) + 4$

$2x(x+4)$

$x + 4(x+4)$

$x^2(2+y)$

$(x+2y)^2$

$x - (4x+3)$

$3x(x+4) - 2x$

$xy + 2y + 1$

$x^2 - 81$

$(x+2y) - 2$

$2(x+y)(x+y)$

$xy + 2y + 2xy$

B  $2x(x+4) = 2x^2 + 8x$

$x^2(2+y) = 2x^2 + x^2y$

$(x+2y)^2 = x^2 + 4xy + 4y^2$

$2(x+y)(x+y) = 2x^2 + 4xy + 2y^2$

C  $x^2 + 7x + 12 = (x+3)(x+4)$

$2(x+2) + 4 = 2(x+4)$

$x - (4x+3) = -3x - 3 = -3(x+1)$

$x^2 - 81 = (x+9)(x-9)$

$xy + 2y + 2xy = 2y + 3xy = y(2+3x)$

$$S = 8r^2 + 17\pi(r^2)$$

**Körper 8**

$$V = 8d^3 - (d^3) \cdot \pi$$

$$S = 16d^2 + 3(d^2) \cdot \pi$$

**10** Es gibt unendlich viele Paare.

Mögliche Begründung:

Man kann von einem Zylinder und einem Quader ausgehen, die das gleiche Volumen haben. Wenn man die Höhe des Zylinders bei konstantem Volumen verändert (den Radius muss man entsprechend anpassen), verändert sich auch die Oberfläche des Zylinders. Durch Ausprobieren findet man so denjenigen Zylinder, bei dem die Oberfläche gleich gross ist wie die des Quaders.

**11 Körper 1**  $V = 2s^2 \cdot 2s = 4s^3 = \text{halbes Würfelvolumen}$ 

**Körper 2**  $V = 2s^2 \cdot s + 2s^2 \cdot s = 4s^3$   
(genau wie bei Körper 1)

**Körper 3**  $V = \left(\frac{s}{2}\right)^2 \cdot \pi \cdot 2s = (s^3) \cdot \frac{\pi}{2}$   
(weniger als ein Viertel des Würfelvolumens)

C Artikel 5 und 6 und Artikel 11 und 12:  
Der Verkaufspreis ist bei beiden gleich.  
Die relativen Werte bei Gewinn und Verlust sind auch gleich.  
Die absoluten Werte von Gewinn und Verlust sind aber nicht identisch, weil unterschiedliche Selbstkosten zugrunde liegen.

## Artikel 5

## Artikel 6

## Artikel 7 und 8:

Die Selbstkosten sind bei beiden gleich.  
Die absoluten Werte bei Gewinn und Verlust sind auch gleich.  
Deshalb sind die relativen Werte von Gewinn und Verlust auch identisch.  
Weil bei Artikel 7 aber Gewinn, bei Artikel 8 aber Verlust gemacht wird, müssen sich die Verkaufspreise unterscheiden.

| 2 A       | Selbstkosten | Warenpreis | Rabatt | Aktionspreis | Gewinn/Verlust absolut | Gewinn/Verlust prozentual |
|-----------|--------------|------------|--------|--------------|------------------------|---------------------------|

C  $7 \cdot 6 \cdot 5 \cdot 4 \cdot 3 \cdot 2 \cdot 1 = 5040$

D  $8 \cdot 7 \cdot 6 \cdot 5 \cdot 4 \cdot 3 \cdot 2 \cdot 1 = 40320$

E  $8 \cdot 6 \cdot 4 \cdot 2 = 384$

S. 129–136 **22 Kreise – Linien – Winkel**

1 A, B und C

2 A und B

3 A Der Torwinkel ist in der Höhe kleiner als in der Breite.

B Das Tor ist dreimal so breit wie hoch. Bei einer Distanz von  $11 \text{ m} : 3 = 3,67 \text{ m}$  ist der Winkel gleich gross.

## 4 A, B, C und D

## 5 A und B

## C Individuelle Lösungen

## 6 A

- B** 1.) Im Kreis den Mittelpunkt M einzeichnen.  
 2.) P mit M mittels einer Geraden verbinden.  
 3.) Strecke PM halbieren, liefert Halbierungspunkt H.  
 4.) Um H zwei Thales-Halbkreise zeichnen ( $h_1$  und  $h_2$ ).  
 →  $h_1$  schneidet den Kreis k in  $B_1$ .  
 →  $h_2$  schneidet den Kreis k in  $B_2$ .  
 5.) P mit  $B_1$  und mit  $B_2$  mittels Geraden verbinden: Das sind die beiden Tangenten, die k in  $B_1$  und  $B_2$  berühren.

- 7 A** 1.) Zwei Kreise zeichnen; die zwei Radien  $r_1$  und  $r_2$  einzeichnen.  
 2.) Im grossen Kreis um  $M_2$  einen dritten Kreis mit dem Radius  $r_2 - r_1$  einzeichnen.  
 3.) Mittelsenkrechte zu  $\overline{M_1 M_2}$  konstruieren.  
 4.) Thaleskreise über und unter  $\overline{M_1 M_2}$  einzeichnen.  
 5.a) Durch den Schnittpunkt P des Thaleskreises mit dem dritten Kreis  $k_3$  und durch  $M_1$  eine Gerade legen, die den  $k_3$  in P berührt.  
 5.b) Durch  $M_2$  und P eine Gerade legen, die den grossen Kreis  $k_2$  in Q schneidet.  
 6.) Zu  $\overline{M_1 P}$  eine Parallele legen, die durch Q geht: Das ist dann die gemeinsame Tangente t, die  $k_2$  in Q und  $k_1$  in R berührt.  
 7.) Die zweite (äussere) gemeinsame Tangente  $t'$  bekommt man durch Spiegeln der ersten gemeinsamen Tangente t an der Geraden  $\overline{M_1 M_2}$ .

B Individuelle Lösung

C Individuelle Lösung

Hinweis: Den Radius des dritten Kreises errechnet man in diesem Fall mit  $r_1 + r_2$ .

## 8

## 9 A

B M(5/0)

C r = 5

## 10 A Rechtecke und Quadrate

- B** Der Kreis über AC ist ein Ortsbogen für  $\delta$ .  
 Der Kreis unter AC ist ein Ortsbogen für  $180^\circ - \delta$ .  
 Also ist  $\beta + \delta = 180^\circ - \delta + \delta = 180^\circ$   
 $\alpha + \gamma$  ist also ebenfalls  $180^\circ$  und somit  $\alpha + \gamma = \beta + \delta$

**11 A** Rhombus und Quadrat**B** Gleich lange Tangentenabschnitte sind gleich gefärbt.

a besteht aus den Teilstrecken blau und rot

c besteht aus den Teilstrecken schwarz und gelb

b besteht aus den Teilstrecken rot und gelb

d besteht aus den Teilstrecken schwarz und blau

a + c = schwarz + blau + rot + gelb

b + d = schwarz + blau + rot + gelb

→ a + c = b + d

**S. 137–142 23 Der Altar von Delos****1 A** a = 7 cm**B** b = 10 cm**C** c = 40 cm**D** d = 32 cm**E** e = 15 cm**F** f = 15 cm**G** a = 15 cm**H** b = 5 cm**I** c = 2,5 m**K** d = 2 m

|          | a  | b  | c | A   |
|----------|----|----|---|-----|
| <b>A</b> | 20 | 12 | 6 | 384 |
| <b>B</b> | 20 | 12 | 3 | 192 |
| <b>C</b> | 10 | 22 | 6 | 384 |
| <b>D</b> | 26 | 6  | 6 | 384 |

**3** Jede der drei Variablen kann bis 0 verkleinert und beliebig vergrößert werden.

Wenn beispielsweise b = 0 ist, dann ist a = c und es entsteht ein Quadrat.

**5 A** Individuelle Lösung

$$\begin{array}{lcl}
 (30+x) \cdot \frac{24}{2} = (18+30) \cdot \frac{(3x+10)}{2} & & \\
 \cdot 2 & & \cdot 2 \\
 (30+x) \cdot 24 = (18+30) \cdot (3x+10) & \text{Zahlen in Klammer zusammengefasst} & \\
 \text{nichts verändert} & & \text{ausmultipliziert} \\
 (30+x) \cdot 24 = 48 \cdot (3x+10) & & \\
 \text{ausmultipliziert} & & \\
 720 + 24x = 144x + 480 & & \\
 -480 & & -480 \\
 240 + 24x = 144x & & \\
 -24x & & -24x \\
 240 = 120x & & \\
 :120 & & :120 \\
 2 = x & & 
 \end{array}$$

**6 A**  $30 + x = 6x + 20$ 

$10 + x = 6x$

$10 = 5x$

$x = 2$

**B** Die zweite Lösungsmethode ist nicht besser als die erste.

Sie ist eher etwas speziell, weil man merken muss, dass alle vier Zahlen durch 24 teilbar sind.

**7 A** Gleichung 1 Rechteckpaar 3

Gleichung 2 Rechteckpaar 4

**B** Rechteckpaar 1  $13 + 11 + 13 + 11 = x + 2x + x + 2x$ Rechteckpaar 2  $x + x + 5 + x + x + 5 = x - 3 + 18 + x - 3 + 18$ **C** Rechteckpaar 1  $x = 8$   $u = 48$ Rechteckpaar 2  $x = 10$   $u = 50$ Rechteckpaar 3  $x = 8$   $u = 64$ Rechteckpaar 4  $x$  ist beliebig**8 A**  $A = r^2 + \left(\frac{s \cdot r}{2} + \frac{t \cdot s}{2} + \frac{t \cdot u}{2}\right) \cdot 4 = r^2 + 2sr + 2ts + 2tu$ **B** Figur 1  $t = 10$  cmFigur 2  $t = 8$  cmFigur 3  $t = 9$  cm**9**  $15 \cdot (45 + x - 12) = 10 \cdot (65 + x)$ 

$15 \cdot (33 + x) = 10 \cdot (65 + x)$

$495 + 15x = 650 + 10x$

$495 + 5x = 650$

$5x = 650 - 495$

$x = 31$

Beim ersten Trapez misst die kürzere Parallelseite 19 cm, beim zweiten Trapez 31 cm. Die Fläche misst dann bei beiden Trapezen  $960 \text{ cm}^2$ .**10 A**  $150 \text{ cm}^2$ **B**  $300 \text{ cm}^2$ **C** Ja, wenn  $x = 3$ **D** Nein:  $x$  müsste dann einen negativen Wert annehmen, was beim ersten Trapez nicht möglich ist.**E** Ja: die Gleichsetzung der beiden Flächen ergibt eine quadratische Gleichung, deren Lösung  $x = 5$  ist. Die Flächen sind dann in beiden Fällen  $100 \text{ cm}^2$ .**11** Die Gleichung  $5(x + 3) + 5(x + 3) + 30 = 130$  führt auf  $x = 7$  und auf  $A = 78 \text{ cm}^2$ **12** Die Gleichung

$$12,5(x + 3,5) + 12,5(x + 3,5) + 15,5 \cdot 8,5 + 15,5 \cdot 8,5 + 12(x + 7) + 5x = 720$$

führt auf  $x = 8$  und damit auf  $A = 180 \text{ cm}^2$

## S. 143–146 24 Zählstrategien

## 1 Mögliche Lösungen:

A  $(n+1)$  Zeilen zu  $n$  Hölzchen +  $(n+1)$  Spalten zu  $n$  Hölzchen.B In jedem Feld wird das Hölzchen oben und das Hölzchen links gezählt. Am Schluss wird vom ganzen  $n \cdot n$ -Quadrat der rechte und der untere Rand mit jeweils  $n$  Hölzchen addiert.C Zuerst die 4 Eckfelder mit je 4 Hölzchen belegen. An jeder Seite die  $n-2$  Randfelder mit 3 Hölzchen belegen. Damit werden 4 Hölzchen zu viel abgedeckt. Diese vier Hölzchen müssen wieder abgezogen werden. Für den Rest im Inneren wird ein Quadrat mit  $n-3$  Seitenlänge mit 2 Hölzchen je Feld belegt. In  $2 \cdot (n-3)$  Felder muss noch ein Hölzchen aufgefüllt werden. Das ergibt  $2 \cdot (n-2)(n-3)$  Hölzchen.D Viermal  $n-1$  Felder an den Aussenrändern mit je 3 Hölzchen belegen. Damit bleibt in der Mitte ein Quadrat mit  $n-2$  Seitenlänge übrig. Für den Rest im Innern wird ein Quadrat mit  $n-3$  Seitenlänge mit 2 Hölzchen je Feld belegt. In  $2 \cdot (n-3)$  Felder muss noch ein Hölzchen aufgefüllt werden. Das ergibt  $2 \cdot (n-2)(n-3)$  Hölzchen.

## 4 Individuelle Lösungen

## S. 147–150 25 Magische Quadrate

## 1 A Es ist ein magisches Quadrat.

|    |    |    |    |    |
|----|----|----|----|----|
| 1  | 7  | 13 | 19 | 25 |
| 14 | 20 | 21 | 2  | 8  |
| 22 | 3  | 9  | 15 | 16 |
| 10 | 11 | 17 | 23 | 4  |
| 18 | 24 | 5  | 6  | 12 |

## B Ja

|    |    |    |    |    |
|----|----|----|----|----|
| 3  | 7  | 15 | 16 | 24 |
| 20 | 21 | 4  | 8  | 12 |
| 9  | 13 | 17 | 25 | 1  |
| 22 | 5  | 6  | 14 | 18 |
| 11 | 19 | 23 | 2  | 10 |

C Es kommen in jeder Spalte, in jeder Zeile und in jeder Diagonalen alle Grossbuchstaben und alle Kleinbuchstaben je einmal vor, also gibt es in jeder Spalte, in jeder Zeile und in jeder Diagonalen immer wieder die gleiche Summe. Wenn die Grossbuchstaben überdies mit 0, 5, 10, 15, 20 besetzt werden und die Kleinbuchstaben mit 1, 2, 3, 4, 5, so entstehen durch die 25 verschiedenen Buchstaben-Kombinationen jeweils alle Zahlen von 1 bis 25 und die magische Summe ist immer  $A + B + C + D + E + a + b + c + d + e = 65$ .

2 A = 15    B = 20    C = 0    D = 5    E = 10  
a = 4    b = 3    c = 1    d = 5    e = 2

## 3 Individuelle Lösung

## 4 A Mögliche Lösung:

$$x = 11 \text{ und } y = 1$$

Die Summe der Zahlen von 11 bis 35 ist 575.

Das ist 25 Mal die Zahl in der Mitte (also  $25 \cdot 23$ ).

Die magische Summe ist  $5 \cdot 23 = 115$ .

|    |    |    |    |    |
|----|----|----|----|----|
| 27 | 34 | 11 | 18 | 25 |
| 33 | 15 | 17 | 24 | 26 |
| 14 | 16 | 23 | 30 | 32 |
| 20 | 22 | 29 | 31 | 13 |
| 21 | 28 | 35 | 12 | 19 |

B  $115 : 5 = 23$  = die Zahl im Zentrum

Das ist bei allen so konstruierten Quadraten so, weil die Zahl im Zentrum immer der Zentralwert der Diagonalsumme von links unten nach rechts oben ist.

Bei diesem magischen Quadrat bedeutet das:

$$21 + 22 + 23 + 24 + 25 = 115$$

$$\rightarrow 115 : 5 = 23$$

C Ja.  $25 \cdot 23 = 575$

Das ist die Summe der Zahlen von 11 bis 35.

D Mögliche Lösung:

$$x = 1 \text{ und } y = 2$$

In diesem Fall setzt man die ungeraden Zahlen von 1 bis 97 in die 49 Felder ein.

Es entsteht wieder ein magisches Quadrat. Die Zeilensummen, die Spaltensummen und die Diagonalsummen sind immer der siebte Teil (343) der Gesamtsumme 2401. Im Zentrum steht der Zentralwert der Zahlen von 1 bis 97, nämlich 49. 49 ist zugleich ein Siebtel der magischen Summe 343. In der Diagonalen von links unten bis rechts oben steht zudem die Zweierfolge der ungeraden Zahlen von 43 bis 55, von denen wiederum 49 Mittelwert und Zentralwert ist.

Interessant ist ausserdem die Rolle der Siebnerpotenzen:

$$\text{Im Zentrum steht } 7^2 = 49,$$

$$\text{die magische Summe ist } 7^3 = 343,$$

$$\text{die Gesamtsumme ist } 7^4 = 2401$$

|    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|
| 59 | 77 | 95 | 1  | 19 | 37 | 55 |
| 75 | 93 | 13 | 17 | 35 | 53 | 57 |
| 91 | 11 | 15 | 33 | 51 | 69 | 73 |
| 9  | 27 | 31 | 49 | 67 | 71 | 89 |
| 25 | 29 | 47 | 65 | 83 | 87 | 7  |
| 41 | 45 | 63 | 81 | 85 | 5  | 23 |
| 43 | 61 | 79 | 97 | 3  | 21 | 39 |

5 A In dieses (auf der Spitze stehende) grosse Quadrat füllt man die 25 Zahlen in die Diagonalen von oben links nach unten rechts ein. Man beginnt mit der Zahl 1 an der oberen Spitze, dann 2, 3, 4, 5. In die zweite Diagonale dann 6, 7, 8, 9, 10 usw. Anschliessend findet der «Rückbau» des vergrösserten, auf der Spitze stehenden Quadrats in das ursprüngliche  $5 \cdot 5$ -Quadrat statt. Dabei werden die drei nach rechts «ausgelagerten» (dunkelblau unterlegten) Zahlen des vergrösserten Quadrats in die drei noch freien Felder in der linken Hälfte des Quadrats eingelagert, die drei nach unten «ausgelagerten» (gelb unterlegten) Zahlen des vergrösserten Quadrats in die drei noch freien Felder in der oberen Hälfte des Quadrats eingelagert usw.

B Ja

**6 A** 255**B** Die neue magische Summe beträgt  $65 + 5c$ , hat sich also um  $5c$  vergrößert.**C** Die magische Summe beträgt neu  $65d$ , wird ist also mit dem Faktor  $d$  multipliziert.**D**  $s_1 = 70$

**2 A** Situation 6**B** Situation 1**Situation 2****Situation 3**

Situation 5

Situation 7

Situation 8

- 3 A** Ich rechne immer mit dem Umrechnungsfaktor 3,6:  
Die Geschwindigkeit in m/s mal 3,6 ergibt die Geschwindigkeit in km/h.  
Die Geschwindigkeit in km/h geteilt durch 3,6 ergibt die Geschwindigkeit in m/s.  
Ich weiss auswendig, dass ein 100 m-Weltrekord-Läufer 100 m in 10 s läuft, also 10 m in 1 s macht, also mit 10 m/s läuft. Das wären 36 km pro Stunde, wenn er tatsächlich eine Stunde lang so schnell laufen könnte.

**B Graph 1:** gleichförmige (nicht beschleunigte) Bewegung mit  $v = 36 \text{ km/h} = 10 \text{ m/s}$

**Graph 2:** gleichförmige (nicht beschleunigte) Bewegung mit  $v = 80 \text{ km/h} \approx 22 \text{ m/s}$

**Graph 3:** gleichförmige (nicht beschleunigte) Bewegung mit  $v = 100 \text{ km/h} \approx 28 \text{ m/s}$

**C**  $80 \text{ km in } 3600 \text{ s} = (80 : 3,6) \text{ km in } 1000 \text{ s} = (80 : 3,6) \text{ m in } 1 \text{ s} = 22,222... \text{ m/s}$

**D** Mögliche Lösungen:

$36 \text{ km in } 3600 \text{ s} = (36 : 3,6) \text{ km in } 1000 \text{ s} = (36 : 3,6) \text{ m in } 1 \text{ s} = 10 \text{ m/s}$

$100 \text{ km in } 3600 \text{ s} = (100 : 3,6) \text{ km in } 1000 \text{ s} = (100 : 3,6) \text{ m in } 1 \text{ s} = 27,777... \text{ m/s}$

|                                                                                | durchschnittliche Geschwindigkeit<br>[m/s] | [km/h] |

 $28,8 \text{ h} = 1 \text{ d } 4 \text{ h } 48 \text{ min}$        $5,6 \text{ d} = 134 \text{ h } 24 \text{ min}$

- 7** A entspricht 5  
B entspricht 3  
C entspricht 1  
D entspricht 6  
E entspricht 4  
F entspricht 2

- 8 A** Man kann es nicht sicher sagen – vielleicht war es ein echtes Unentschieden.

**Begründung:** In 1 s werden 2 m zurückgelegt, in  $\frac{1}{1000} \text{ s}$  also genau 2 mm. Wenn nun die Bahn von A 2 mm kürzer war als die von B, so ist sein kleiner Vorsprung von nur  $\frac{1}{1000} \text{ s}$  eben gerade durch die kürzere Bahn begründbar.

- B** 5 m  
**C** ziemlich genau 1 Minute

- 9** A falsch  
B wahr  
C wahr  
D falsch

Aus der Steigung der Kurve lässt sich die Geschwindigkeit ablesen. D. h. wenn die Kurve steil ansteigt (= wenn die Steigung der Kurve gross ist), ist die Geschwindigkeit hoch.

## S. 157–160 27 Zinsen

### S. 169–170 30 Kalender – Teilbarkeit

1 Nach dem Komma erscheint eine 5, was  $\frac{5}{10}$  und gleichzeitig  $\frac{1}{2}$  bedeutet. Das Ergebnis ist gut erklärbar:  
Man teilt ja den 2er-Rest (also 1) durch 2, man erhält  $\frac{1}{2}$ , weil  $1 : 2 = \frac{1}{2}$  ist.

2 A  $3 : 3 = 1,0$      $4 : 3 = 1,333...$      $5 : 3 = 1,666...$

■ Wenn der 3er-Rest = 0 ist, erscheint nach dem Komma 0.

■ Wenn der 3er-Rest = 1 ist, erscheint nach dem Komma die nicht-abbrechende Ziffernfolge 333...

■ Wenn der 3er-Rest = 2 ist, erscheint nach dem Komma die nicht-abbrechende Ziffernfolge 666...  
Weitere Möglichkeiten gibt es nicht.

■ 0,333... ist die dezimale Darstellung von  $\frac{1}{3}$  und entsteht aus der Division  $1 : 3$ .

■ 0,666... ist die dezimale Darstellung von  $\frac{2}{3}$  und entsteht aus der Division  $2 : 3$ .

B ■ Wenn der 4er-Rest = 0 ist, erscheint nach dem Komma 0.

■ Wenn der 4er-Rest = 1 ist, erscheint nach dem Komma die abbrechende Ziffernfolge 25.

■ Wenn der 4er-Rest = 2 ist, erscheint nach dem Komma die abbrechende Ziffernfolge 50.

■ Wenn der 4er-Rest = 3 ist, erscheint nach dem Komma die abbrechende Ziffernfolge 75.

■ Weitere Möglichkeiten gibt es nicht.

■ 0,25 ist die dezimale Darstellung von  $\frac{1}{4}$  und entsteht aus der Division  $1 : 4$ .

■ 0,50 (oder 0,5) ist die dezimale Darstellung von  $\frac{2}{4}$  und entsteht aus der Division  $2 : 4$ .

■ 0,75 ist die dezimale Darstellung von  $\frac{3}{4}$  und entsteht aus der Division  $3 : 4$ .

C ■ Wenn der 5er-Rest = 0 ist, erscheint nach dem Komma 0.

■ Wenn der 5er-Rest = 1 ist, erscheint nach dem Komma 2.

■ Wenn der 5er-Rest = 2 ist, erscheint nach dem Komma 4.

■ Wenn der 5er-Rest = 3 ist, erscheint nach dem Komma 6.

■ Wenn der 5er-Rest = 4 ist, erscheint nach dem Komma 8.

D ■ 6er-Reste ungleich Null führen hinter dem Komma auf Ziffernfolgen 1666.../3333.../5 (abbrechend)/6666.../8333...

■ 8er-Reste ungleich Null führen hinter dem Komma auf Ziffernfolgen 125/250/375/500/625/750/875 (alle abbrechend).

■ 9er-Reste ungleich Null führen hinter dem Komma auf Ziffernfolgen 1111.../2222.../3333.../4444.../5555.../6666.../7777.../8888....

3 A 0/0/0/0/...

B 2/1/0/3/2/1/0/3/...

C 2/3/4/0/1/2/3/...

D 3/2/3/0/...

E 0/1/2/3/4/...

F 1/3/5/5/5/5/...

G 2/6/3/2/3/6/2/0...

4 Für 12: Eine Zahl ist durch 12 teilbar, wenn sie durch 3 und durch 4 teilbar ist.

Für 15: Eine Zahl ist durch 15 teilbar, wenn sie durch 3 und durch 5 teilbar ist.

Für 18: Eine Zahl ist durch 18 teilbar, wenn sie durch 2 und durch 9 teilbar ist.

Für 24: Eine Zahl ist durch 24 teilbar, wenn sie durch 3 und durch 8 teilbar ist

Für 25: Eine Zahl ist durch 25 teilbar, wenn der Hunderterrest (ablesbar an den letzten zwei Ziffern) entweder 00, 25, 50 oder 75 ist.

Für 125: Eine Zahl ist durch 125 teilbar, wenn der Tausenderrest (ablesbar an den letzten drei Ziffern) entweder 000, 125, 250, 375, 500, 625, 750 oder 875 ist.

5 2/3/4/5/6/7/8/9/10/12/15/16/18/20/21/24/27/28/30/32/35/  
36/40/42/45/48/54/56/60/64/70/72/...

- 6** Ja, das stimmt. Die 5er-Reste von fünf aufeinander folgenden Zahlen lauten (in irgendeiner Reihenfolge) 0, 1, 2, 3, 4. Die Summe dieser 5er-Reste ist 10, 10 ist aber wiederum durch 5 teilbar. Die Summe der fünf Zahlen hat also den 5er-Rest Null.

- 7 A** Alle drei Divisionen gehen auf.

**B**  $((200\ 200 : 7) : 11) : 13 = 200$

$((201\ 201 : 7) : 11) : 13 = 201$

$((202\ 202 : 7) : 11) : 13 = 202$

**C**  $abc \cdot 7 \cdot 11 \cdot 13 = abc \cdot 1001 = abcabc$ , weil  $7 \cdot 11 \cdot 13 = 1001$  ist.

- 8** 9875

- 9**  $11 \cdot 13 = 143$

9er-Rest von 11 = 2, 9er-Rest von 13 = 4

9er-Rest von 143 = 8, also tatsächlich  $2 \cdot 4$

$15 \cdot 18 = 270$

9er-Rest von 15 = 6, 9er-Rest von 18 = 0

9er-Rest von 270 = 0, also tatsächlich  $6 \cdot 0$

$16 \cdot 17 = 272$

9er-Rest von 16 = 7, 9er-Rest von 17 = 8

9er-Rest von 272 = 2; nun gibt  $7 \cdot 8$  zwar 56, aber der 9er-Rest von 56 ist tatsächlich auch 2.

- 10 A und B**

Man erhält immer wieder die Ausgangszahl.

**C** Eine zweistellige Zahl dreimal hintereinander zu schreiben ist das Gleiche wie die Zahl mit 10101 zu multiplizieren. Zudem ist  $13 \cdot 21 \cdot 34 = 10101$ . Wenn man eine Zahl mit 10101 multipliziert und anschliessend wieder durch 10101 dividiert, muss die Ausgangszahl herauskommen.

- 11 A** Die kleinste solche Zahl ist 52.

**B** Die weiteren Zahlen sind 157 262 367 472...

**C** Die Differenz dieser Zahlen ist immer  $105 = 3 \cdot 5 \cdot 7$

- 12** Man muss den 12er-Rest der gewählten Zahl bestimmen und zur gerundeten Uhrzeit addieren.

Jeder Hunderter, Tausender, Zehntausender usw. hat den 12er-Rest 4, was die Bestimmung erleichtert.

Beispiel:

Momentane Uhrzeit: Der Stundenzeiger steht bei 7

Gewählte Zahl: 123 456

12er-Rest von 123 456 ist gleich dem 12er-Rest von

$(1 + 2 + 3 + 4) \cdot 4 + 56$  ist gleich dem 12er-Rest von 96 und

der ist 0. Der Stundenzeiger steht also nach 123 456 Stunden wieder bei 7.

### S. 171–172 31 Gesetze des Zufalls

- 1** Es gilt auch für das Objekt Z. Beim Objekt Z sind je eine grosse Fläche und je zwei kleine Flächen mit ungeraden bzw. geraden Zahlen besetzt, die Wahrscheinlichkeit für «ungerade» ist daher gleich gross wie für «gerade».

- 2 A** etwa 100 Mal

**B** Es braucht deutlich mehr als 100 Versuche. Der Sechser ist hier viel weniger wahrscheinlich als z. B. der Fünfer.

- 3 A** Bert hat nicht Recht. Die Würfelereignisse sind voneinander unabhängig. Der zweite Wurf ist vom ersten nicht beeinflusst, die Wahrscheinlichkeit bleibt  $\frac{1}{6}$ .

**B** Anna hat Recht. Beim Objekt Z ist eine 5 grundsätzlich wahrscheinlicher als eine 6, aber unabhängig von vorangehenden Würfeln.

**C** Die Wahrscheinlichkeit ist in beiden Fällen  $\frac{1}{6} \cdot \frac{1}{6} = \frac{1}{36}$ .

| zweimal 2          | zweimal 3        | eine 2 und eine 3 |
|--------------------|------------------|-------------------|
| etwa 12 bis 20 Mal | etwa 0 bis 1 Mal | etwa 3 bis 7 Mal  |

| zweimal 2        | zweimal 3        | eine 2 und eine 3 |
|------------------|------------------|-------------------|
| etwa 1 bis 4 Mal | etwa 1 bis 4 Mal | etwa 4 bis 7 Mal  |

- 5** Die Zeilen B und C sind berechnete Erwartungswerte (für total 234 bzw. 900 Würfe).

Die Zeilen A und D könnten Ergebnisse von Versuchen (mit total 279 bzw. 600 Würfeln) sein.

- 6** Der fett eingezeichnete Weg ist der optimale.

## S. 173–175 32 Bruchterme

1 A T3  $x - 2$ 

Mögliche Lösungen:

T5  $\frac{1}{(x-2)}$

B  $T1 + T2 = \frac{x}{x+3} + \frac{x^2-1}{x+3} = \frac{x^2+x-1}{x+3}$

T7  $\frac{(x-1)}{(x+3)}$

C  $T1 + T10 = \frac{x}{x+3} + \frac{x-1}{x^2+x-6} = \frac{x}{x+3} + \frac{x-1}{(x+3)(x-2)} = \frac{x(x-2)+x-1}{(x+3)(x-2)} = \frac{x^2-2x+x-1}{(x+3)(x-2)} = \frac{x^2-x-1}{(x+3)(x-2)}$

T8  $\frac{(x-4)}{(x+3)}$

D  $T6 - T2 = \frac{x^2}{x+3} - \frac{x^2-1}{x+3} = \frac{x^2-(x^2-1)}{x+3} = \frac{x^2-x^2+1}{x+3} = \frac{1}{x+3}$

T9  $\frac{(x+2)}{(x+3)}$

E  $T1 - T10 = \frac{x}{x+3} - \frac{x-1}{x^2+x-6} = \frac{x}{x+3} - \frac{(x-1)}{(x+3)(x-2)} = \frac{x(x-2)-(x-1)}{(x+3)(x-2)} = \frac{x^2-2x-x+1}{(x+3)(x-2)} = \frac{x^2-3x+1}{(x+3)(x-2)}$

F  $T3 \cdot T10 = \frac{x^2-4}{x+2} \cdot \frac{x-1}{x^2+x-6} = \frac{(x-2)(x+2)(x-1)}{(x+2)(x+3)(x-2)} = \frac{x-1}{x+3}$

G  $T2 \cdot T10 = \frac{x^2-1}{x+3} \cdot \frac{x-1}{x^2+x-6} = \frac{(x-1)(x+1)(x-1)}{(x+3)(x+3)(x-2)}$

H  $T6 : T2 = \frac{x^2}{x+3} : \frac{x^2-1}{x+3} = \frac{x^2(x+3)}{(x+3)(x+1)(x-1)} = \frac{x^2}{(x+1)(x-1)}$

2 A T2  $x - y$ 

Mögliche Lösungen:

T3  $x - 2y$

B  $T5 + T10 = \frac{x+2y}{x^2+xy-6y^2} + \frac{x-y}{x^2+xy-6y^2} = \frac{x+2y+x-y}{x^2+xy-6y^2} = \frac{2x+y}{(x+3y)(x-2y)}$

T7  $\frac{x-y}{x+3y}$

C  $T1 + T6 = \frac{x}{x+y} + \frac{x^2}{x+2y} = \frac{x(x+2y)+x^2(x+y)}{(x+y)(x+2y)} = \frac{x^2+2xy+x^3+x^2y}{(x+y)(x+2y)} = \frac{x(x^2+xy+x+2y)}{(x+y)(x+2y)}$

D  $T6 - T3 = \frac{x^2}{x+2y} - \frac{x^2-y^2}{x+2y} = \frac{x^2-(x^2-y^2)}{x+2y} = \frac{x^2-x^2+y^2}{x+2y} = \frac{y^2}{x+2y}$

E  $T6 - T2 = \frac{x^2}{x+2y} - \frac{x^2-y^2}{x+y} = \frac{x^2(x+y)-(x^2-y^2)(x+2y)}{(x+2y)(x+y)} = \frac{x^3+x^2y-(x^3+2x^2y-xy^2-2y^3)}{(x+2y)(x+y)} = \frac{2y^3+xy^2-x^2y}{(x+2y)(x+y)}$

F  $T5 \cdot T6 = \frac{x+2y}{x^2+xy-6y^2} \cdot \frac{x^2}{x+2y} = \frac{x^2(x+2y)}{(x+3y)(x-2y)(x+2y)} = \frac{x^2}{(x+3y)(x-2y)}$

G  $T4 \cdot T6 = \frac{x^2}{x^2-4y^2} \cdot \frac{x^2}{x+2y} = \frac{x^4}{(x-2y)(x+2y)(x+2y)} = \frac{x^4}{(x+2y)^2(x-2y)}$

H  $T4 : T6 = \frac{x^2}{x^2-4y^2} : \frac{x^2}{x+2y} = \frac{x^2(x+2y)}{x^2(x-2y)(x+2y)} = \frac{1}{x-2y}$

## 3 Ergebnisse für gleichwertige Terme

A  $r = 0$

B  $r = 0$

C  $r = s$

$s = -1$

$s = -\frac{1}{2}$

D Wenn  $s = 0$  ist, ist Term 1 nicht definiert, weil Divisionen durch 0 nicht zulässig sind.Wenn  $s = -1$  ist, ist Term 2 nicht definiert, weil Divisionen durch 0 nicht zulässig sind.E In B: Wenn  $s = 0$  ist, ist Term 1 nicht definiert, wenn  $s = \frac{1}{2}$  ist, ist Term 2 nicht definiert.In C: Wenn  $s = 0$  ist, ist Term 1 nicht definiert, wenn  $s = -1$  ist, ist Term 2 nicht definiert.

## 4 A

|        | $x = 1$        | $x = 2$        | $x = 3$        | $x = 10$         | $x = 100$            | $x = 1000$              |
|--------|----------------|----------------|----------------|------------------|----------------------|-------------------------|
| Term 1 | 0              | $\frac{1}{7}$  | $\frac{2}{9}$  | $\frac{9}{23}$   | $\frac{99}{203}$     | $\frac{999}{2003}$      |
| Term 2 | $\frac{31}{2}$ | $\frac{34}{3}$ | $\frac{37}{4}$ | $\frac{40}{11}$  | $\frac{310}{101}$    | $\frac{3010}{1001}$     |
| Term 3 | $\frac{2}{5}$  | $\frac{5}{6}$  | $\frac{10}{7}$ | $\frac{101}{14}$ | $\frac{1000}{104}$   | $\frac{1000001}{1004}$  |
| Term 4 | $-\frac{2}{9}$ | $-\frac{3}{2}$ | $\frac{4}{17}$ | $\frac{11}{990}$ | $\frac{101}{999990}$ | $\frac{1001}{99999990}$ |

## Feststellungen

Term 1 nähert sich mit grösser werdenden  $x$  dem Wert  $\frac{1}{2}$  an.Term 2 nähert sich mit grösser werdenden  $x$  dem Wert 3 an.Term 3 nähert sich mit grösser werdenden  $x$  dem Wert  $x$  an.Term 4 nähert sich mit grösser werdenden  $x$  dem Wert 0 an.B Das führt zu einer Division durch 0:  $-\frac{2,5}{0}$  ist nicht definiert.

C Wenn der Nenner 0 ist, lässt sich der Wert des Terms nicht bestimmen bzw. er wird unendlich gross.

Das ist der Fall bei

Term 2  $x = -1$ Term 3  $x = -4$ Term 4 Wenn  $x^3 = 10$  ist ( $x$  ist die 3. Wurzel aus 10)

## 5 1. Figur (L)

$\frac{d(a+h-d)}{ah}$

## 2. Figur (O)

$\frac{d(2a+b)}{(a+d)(b+d)}$

## 3. Figur (K)

$\frac{2hd}{ah}$

6 A  $\frac{2a^2+2a+1}{a(a+1)}$

B  $\frac{2b^2+b}{(b+1)(b-1)}$

C  $\frac{-3c-d}{2(c+d)}$

D  $\frac{2d^2+de+e}{d+e}$

E  $1+b$

F  $\frac{-(5c+2d)}{2c}$

7 A  $\frac{a(a^2+b)}{a+b}$

B 1

C  $\frac{3c+d}{2c}$

D  $\frac{a+2b}{a+b}$

E  $\frac{x+1}{x^2-4}$

F  $\frac{3(x^2+y^2)}{y(x+y)}$
